DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, drawn to a protective film.

Group II, claim(s) 7-9, drawn to a protective film.

Group III, claim(s) 10-15, drawn to a method of preparing a protective film.

Group IV, claim(s) 16-17, drawn to a method of preparing a decorated article.

2. The inventions listed as Groups I, II, III, and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the Invention of Group II requires the adhesive layer to adhere and conformed to the major surface of the substrate; the Invention of Group III does not include a toughening layer as that in the Invention of Group I or Group II; whereas the Invention of Group IV requires a heating step that is not included Group III.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not

Art Unit: 1794

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
